

SCC Trades Facility Naming Opportunities

The Need for Trades

Demand for skilled trades workers across North Carolina and our region is not merely high, it is soaring. To meet this need, Stanly Community College is constructing a trades facility on the Albemarle Campus that will offer training in Carpentry, Electrical, Plumbing, Masonry, Welding, HVAC, Machining, and Heavy Equipment Operation. This 31,600-square-foot facility is a \$12 million dollar investment in our community that will provide the skills and education necessary to fill the workforce pipeline.

Donor Giving & Recognition

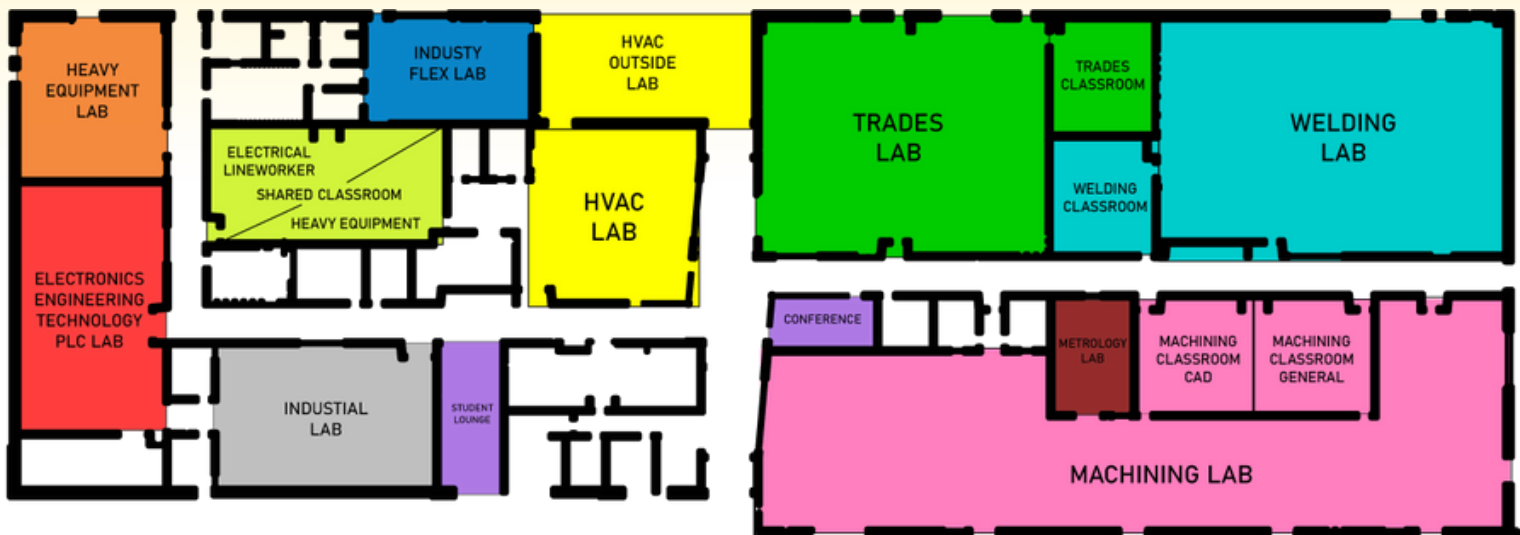

The SCC Foundation has created naming opportunities that will recognize individuals and organizations who are committed to the success and growth of the college, the economic development needs of Stanly County, and our next generation of workforce talent.

Gifts may be pledged over 3 to 5 years. Your gift will be publicly acknowledged in accordance with our donor recognition plan unless you request anonymity. Upon receipt of your pledge or gift with a naming opportunity request, SCC will provide a written donor recognition memorandum to capture the recognition and naming details. Both parties will sign the memorandum when its contents are mutually approved.

Join Us

We invite you to join us in making the Stanly Community College Trades Facility as bright and promising as the students who will train there. You can leave a lasting legacy to Stanly County and SCC students by naming an area of the new facility.

Map

Matching colors on the next page indicate naming opportunities for each area.

Naming Opportunities

Conference Room

300 square feet
\$25,000

Student Lounge

324 square feet
\$25,000

Heavy Equipment Lab

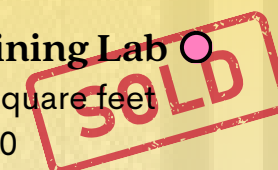

756 square feet
\$50,000

Heavy Equipment & Electrical Lineworker Shared Classroom

550 square feet
\$40,000

Machining Lab

4,500 square feet
\$75,000

Machining Classroom - CAD

550 square feet
\$40,000

Machining Classroom - General

675 square feet
\$40,000

HVAC Systems Lab

1,296 square feet
\$50,000

HVAC Systems Classroom (In Lab)

550 square feet
\$40,000
