

Research Project Information

1. Project Title

--

2. Project Dates

Projected Start Date:

Projected End Date:

Projected Timeline of Stanly Community College-Related Activities:

--

3. Introduction - Briefly describe in lay language the purpose of the proposed research and why it is important. If investigator is a student, be sure to indicate whether the research is for a course, thesis, dissertation, or independent research.

--

4. Subject Population - Describe the research subject population, including estimated numbers, specific eligibility requirements/screening procedures, sampling procedures (if applicable), and how the subjects will be recruited.

--

5. Procedures – In lay language, describe all procedures to be followed during the course of the research project. Provide sufficient detail, so that the Director and/or Research Review Committee are able to assess whether the research is approved at SCC, based on the [SCC Use of Human Subjects Policy](#).

--

6. What data (if any) will you be requesting from SCC personnel?

--

7. Specific Questions – Your answers to the following questions regarding the proposed research project will assist the Director and/or Research Review Committee in determining the approval status of the project.

A. Is the activity a systematic investigation designed to develop or contribute to generalizable knowledge?
Yes No N/A
B. Does the research involve obtaining information about living individuals?
Yes No N/A
C. Does the research involve intervention or interaction with subject individuals?*
Yes No N/A
D. Is the information individually identifiable (i.e., the identity of the subject is or may readily be ascertained by the investigator or associated with the information)?
Yes No N/A
E. Does the research involve children (under age 18), prisoners, pregnant women, persons with mental disabilities, or persons whose economic status would leave them susceptible to coercion?
Yes No N/A
F. Does the research deal with sensitive aspects of the research subjects' behaviors, such as illegal conduct, drug or alcohol abuse, or sexual behavior?
Yes No N/A
*Attach a copy of the informed consent form required for all research involving human subject interaction or intervention. See Section 2.H. of the SCC Use of Human Subjects Policy for required components.

8. Potential Effects on Human Subjects – List potential risks and benefits to human subjects involved in the research project.

Potential Risks

Potential Benefits

9. Additional Information

- A. If a questionnaire, survey or interview instrument is to be used, attach a copy to this application.
- B. Attach a copy of the informed consent form, if applicable.
- C. Use the space below to provide any additional information that will assist the Director and/or Research Review Committee in determining the approval status of the research proposal.

Large empty rectangular box for providing additional information.
