

Upload to YouTube Step by Step Instructions

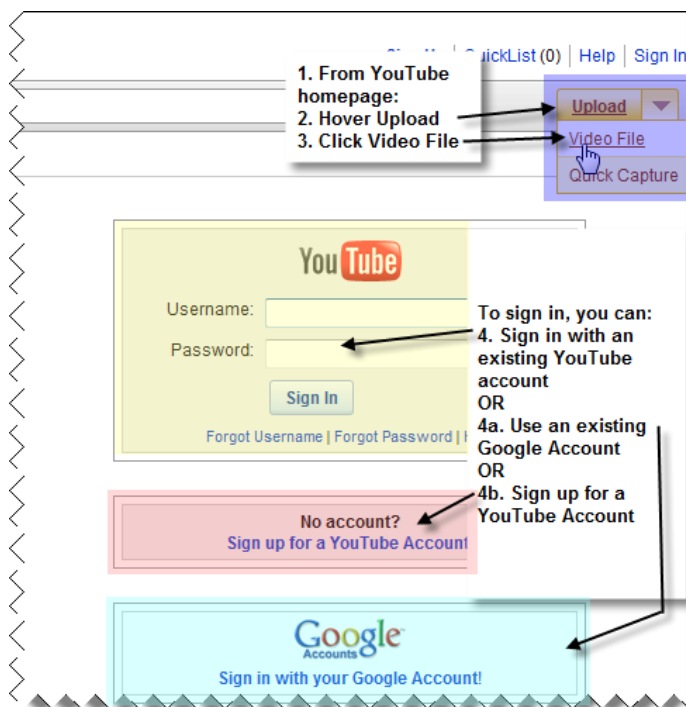

YouTube can be used for a lot more than videos of your cat. Educational institutions all over the world upload video there for use by their students or by anyone. Too, students can upload video they create and link to it in WebCT so that the instructor and classmates can all enjoy the movie.

To upload a video to YouTube:

1. Start at <http://youtube.com>
2. Hover over the Upload video link (this displays the sub-menu)
3. Click Video File (this displays the log-in page)
4. Sign in (or create an account)

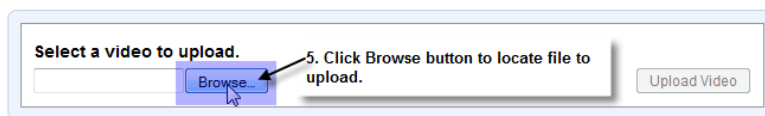

Note: As of this writing you canNOT use the scc.stanly.edu Google account supplied to you by SCC. You CAN use an external Google account if you have one:

- a. Click the Sign in with Google account link. You will be prompted to create a YouTube account which will be linked to your Google account
- b. If you do not have an external Google account:
 - i. Click the "Sign up for a YouTube account" link

Once you have signed in, YouTube will display the Video File Upload window.

5. Click the Browse button to point to the video you want to upload.

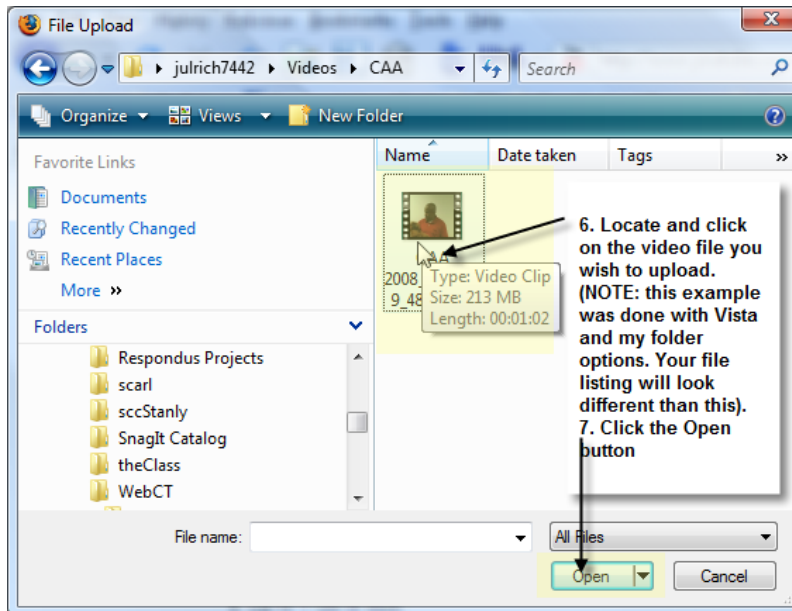

Clicking the Browse button will display a File Upload dialog box with the files and folders on your computer.

6. Locate and click on the video file you wish to upload

Upload to YouTube Step by Step Instructions

7. Click on the Open button on the File Upload dialog box.

Clicking the Open button will redisplay the Video File Upload window with the address to your file filled in.
