

Associate in Arts (AA) Check List and Course Sequence

Checklist

SCC offers two fully transferable degrees: Associate in Arts (AA) and Associate in Science (AS).

Stanly Community Colleges transfer degrees offer an economical and efficient way to work towards a bachelors degree. The Associate in Arts degree is a good choice for future education, social science (history, psychology, sociology, economics, business, etc.), liberal arts (languages, English, fine arts, etc.) majors, or a professional school that requires a strong liberal arts background. The mathematics and science requirements are fewer than for an Associate in Science degree. For most majors, if a student wishes to attend a university, the Associate in Arts degree is the best degree to pursue.

UNC-system universities (and most private colleges and universities) will accept the completed AA degree as a package, which will waive the undergraduate general education requirements.

Courses identified as Universal General Education Transfer Component courses (UGETC) will transfer to the UNC-system universities and receive *course for course* credit (provided students earn a C or better in these courses). Other courses marked for transfer may receive general education or elective credit. Some SCC courses may not meet general education core requirements. Therefore, students should work closely with their advisors when registering for courses and planning their futures.

If a student has an Associate in Arts (A.A.) degree and at least a 2.0 grade point average, he or she will be considered for transfer by the senior institution. If the student meets minimum admission requirements for the UNC System, he or she may transfer before completing the A.A. degree; however, completing the A.A. degree with at least a 2.0 grade point average will increase transferability to the students college of choice.

Associate in Arts students are required to have basic computer literacy and should take CIS 110 as an elective course.

University Transfer Program Student Learning Outcomes

Upon completion of the University Transfer Program:

- PO.1 Students should be able to demonstrate effective research skills including all required elements as assessed in select courses as demonstrated by earning a minimum score of 3 out of 5 on the research skills rubric.
- PO.2 Students should be able to demonstrate global and cultural literacy as assessed in select courses as demonstrated by earning a minimum score of 3 out of 5 on the global/cultural literacy rubric.
- PO.3 Students will be able to analyze concepts of individuals and people within social and historical contexts as assessed in select courses as demonstrated by earning a minimum score of 3 out of 5 on the social/historical contexts rubric.
- PO.4: Students will be able to use critical thinking skills to solve problems as assessed in select courses as demonstrated by earning a minimum score of 3 out of 5 on the critical thinking skills rubric.
- PO.5: Students will be able to apply scientific principles to the natural and physical world as assessed in select courses as demonstrated by earning a minimum score of 3 out of 5 on the scientific principles rubric.

Students must complete a total of 60 semester hours (SH) to receive the Associate in Arts degree (see program outline below). Students must earn a C or better in all transferable courses. Please consult an advisor, review the Associate in Arts and Associate in Science Transfer Course List or see the *Course Descriptions* to ensure course transferability when selecting elective courses. The last sentence in the course description will indicate if the course is transferable.
