

Updated: February 13, 2023 (previous update January 13, 2022)

Data sources: Stanly Community College tracking logs in the offices of Human Resources (employee data) and Academic Affairs (student data)

Notes: Stanly Community College does not offer testing, health care services, or contact tracing for the coronavirus causing COVID-19. All data are self-reported by the affected individuals without verification by the Stanly County Health Department or any health care provider. **Results of home testing are included only if self-reported.** Stanly Community College makes no claim, and disclaims affirmatively, that the results reported here are conclusive or complete. Tracking logs are maintained for purposes of employee leave benefits and for student class activities only. Readers are advised not to rely on this report for any purpose. Positive test results are listed for employees known to be on campus within two days prior to testing, suspected to be on campus “a few days” prior to testing, and for whom it is unclear as to presence on campus within two weeks prior to testing. Positive test results are listed for students who were on campus for class or at an off-site class location such as clinical rotations within one week prior to testing. Positive test results are excluded for employees and students who were working or in class remotely only. The tracking logs do not address level of vaccination for any individuals.
