BACKGROUND CHECKS/DRUG SCREENING

Applicants accepted for admission to health services programs at Stanly Community College are required to complete a criminal background check and drug screening after notification of acceptance and prior to participation in on-site clinical training. Based on the results, clinical affiliates where the student will participate in on-site training may deny access to their facility, resulting in the student's inability to complete the clinical portion of training. **Students unable to complete the clinical portion will be unable to progress in the program.** Students are responsible for paying all costs associated with this requirement.

SELECTION PROCESS

Applicants seeking admission to the Practical Nursing program will be ranked based on TEAS scores and admitted based on rank order. Applicants accepted for admission must complete all admission requirements by the date specified in their acceptance letter. Applicants who fail to complete all admission requirements for the PN program will be removed from the acceptance list and replaced by applicants on the alternate list.

ALTERNATE LIST

As vacancies arise on the acceptance list, applicants on the alternate list are contacted in rank order and offered acceptance to the program. Applicants on the alternate list who are not offered acceptance to the PN program for the year in which they have applied to enter will **not** be carried over to a waiting list the following year. Applicants must apply each year they wish to be considered for admission into the practical nursing program. Any concerns about acceptance should be directed to the Director of Admissions.

LICENSURE

1. The nursing faculty must verify a student as a candidate for the National Council Licensure Examination for Practical Nursing based on academic achievement and professional accountability.
2. The North Carolina Board of Nursing application for licensure includes a criminal background check. Before an individual can sit for a licensure exam (NCLEX-PN), the application process must be completed. An applicant may then sit for the licensure exam; however, an individual may be denied licensure based on a criminal background check. If the individual has been convicted of a felony or any other crime involving moral turpitude, the NCBON (North Carolina Board of Nursing) may deny that individual a license even if he or she has passed the NCLEX exam. This process is between the individual and the North Carolina Board of Nursing. The nursing program validates only the successful completion of the diploma.
