

Stanly Community College
Career & College Promise (CCP)
Participation Agreement

The ability to take college courses through the CCP program is a tremendous benefit to high school students. Tuition is waived, thus saving the student hundreds of dollars in college tuition.

By signing below, I understand that this is a **college course** – it will require college level work and I agree to do my very best in the course(s) that I am requesting to enroll in.

Also, I agree to the following (initial each item after reading it):

- **Schedule change period is 3 days from the start date of the class – any changes after the 3 days will result in a grade of F on the High School transcript**
- I will complete SCC’s New Student Orientation **prior** to the start date of my class
- I will log into the course on the start date of the class and complete the census assignment
- I will read the course syllabus and ask questions of my instructor for any item that I do not understand
- I will carefully read all instructions given via jmail, email, syllabus, or orally by my instructor
- I will keep up with the due dates of my assignments
- I will contact my instructor for help and/or arrange a tutor with SCC’s Academic Support Center
- I will attend all class meetings (hybrid classes)
- If I have to be absent from a class meeting (hybrid classes), I will email my instructor immediately to let him/her know and ask what was covered in the class meeting
- High school events (college visits, field trip, pep rally, sporting event, assembly, etc.) are **NOT** excused absences from a CCP class meeting – it is crucial that you attend every class meeting
- I will log into the online portion of my class at least 3 times per week – failure to log in may result in student being withdrawn from the course
- I will check my SCC student email account at least 3 times per week

I have read Stanly Community College’s CCP Participation Agreement and will uphold my responsibilities as an SCC college student.
