Stanly Community College is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award associate degrees.

Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about accreditation of Stanly Community College. Website: <http://www.sacscoc.org>.

Stanly Community College is an equal opportunity educational institution and employer. The College does not practice or condone discrimination in any form against students, employees, or applicants on the grounds of race, color, national origin, religion, gender, age, or disability consistent with the Assurance of Compliance with Title VI and VII of the Civil Rights Act of 1964, Executive Order 11246, Title IX of the Education Amendments of 1972, the Rehabilitation Act of 1973, and the Americans With Disabilities Act of 1992.

Message From the President

What an incredible year it has been! The COVID-19 pandemic had a profound impact on all of us, from our students trying to learn, to our faculty who shifted countless courses online, to our staff who provided much needed support to our students. I was overwhelmed at the resilience of our campus community who met the challenges head-on with resolute action. Learn more about how SCC met the extraordinary challenges of the COVID-19 pandemic on the next page.

Our School of Advanced Manufacturing, Industry, Technology and Trades will be getting a new trades building very soon. The facility is being designed by ADW Architects and will allow the College to expand existing programs and add new construction-related programs. The new facility will house classrooms and labs for welding, machining, mechatronics, heavy equipment, electrical lineworker, HVAC, carpentry, electrical, and plumbing. Flexible lab space for industry training is also part of the new building. We anticipate groundbreaking for the new building in 2022. Once the building is completed in 2023, existing space on campus will be freed up to add a new training program in automotive maintenance.

Our School of Business and Transfer launched two new degrees, the Associate in Arts Teacher Preparation and the Associate in Science Teacher Preparation. Both degrees will fuel the pipeline for future teachers in North Carolina, as well as position the College to train and recruit future teachers.

Our School of Health Sciences and Public Services continues to teach students about industries expected to grow over the next decade. Even amidst COVID-19, 100% of the 2020 Annie Ruth Kelley Associate Degree Nursing (ADN) graduates were able to pass the NCLEX-RN and begin working as Registered Nurses. This class was instrumental in the program's national accreditation process with the National League of Nursing Commission for Nursing Education Accreditation, which was awarded in February 2021. The rigorous accreditation process involved both nursing faculty and nursing students over several years. The nursing program at SCC meets standards of the Commission of Nursing Education Accreditation signifying the program's strength through evaluating data collected for all program components. This achievement indicates that SCC's ADN program consistently places highly competent nurses into the workforce.

Our College Foundation continues to make college affordable and accessible for students through scholarships, grants, and student aid. We are thankful for the support of individuals, dedicated community partners, and forward-thinking corporations who give so generously to the College. This support makes it possible for us to continue to offer the exceptional education for which we are known and stay focused on what matters most—our students.

The College's 2021-2024 strategic plan is complete and will be available for your viewing in the coming weeks. We anticipate many great accomplishments in the years ahead. Sustaining success requires a clear focus on our future.

We anxiously await a return to in-person classes and all the other academic activities that provide our students the best possible college experience. It is my honor to serve you, and to work with such outstanding faculty and staff who continue to provide the excellent education and training that supports our community and beyond.

Sincerely,

A handwritten signature in black ink that reads "John D. Enamait". The signature is written in a cursive, flowing style.

John D. Enamait, Ph.D.
President, Stanly Community College

SCC Responds to COVID-19

Stanly Community College responded to the COVID-19 outbreak by doing what we do best—providing education. SCC made its first college-wide communication regarding college safety practices for respiratory illnesses on January 31, 2020, the day after the World Health Organization (WHO) declared COVID-19 a public health emergency of international concern. All college-related travel was banned on March 12, one day after WHO characterized COVID-19 as a pandemic. SCC remained open by remote operations effective March 21, 2020. Limited on-campus operations resumed June 4 with written guidance for employees provided a few days before.

A COVID climate survey has been available daily since March 30, 2020, for students to request assistance. SCC has attempted to mitigate the impacts for our students. SCC was well-positioned prior to the COVID-19 outbreak to provide what is called Hy-flex instruction, which means that SCC had classes that could be held face-to-face in a classroom with a live-stream online (synchronous) and recording for future viewing (asynchronous).

Other programs had to pivot rapidly to adopt the changes. Combinations of face-to-face, synchronous, and asynchronous instruction are now the norm. SCC distributed Chromebooks, heightened on-campus access to broadband, and offered Wi-Fi hotspots* to help with students' limited access to technology. Online services increased for academic support in tutoring, counseling, and a variety of advising support.

A new Student Assistance Program was developed to help students with their increased mental health needs. Over \$365,000 in federal funds were distributed in April 2020 for student emergency fund grants. Employees have also needed extensive technology upgrades to support their remote work, including Wi-Fi hotspots. SCC employee jobs have not been affected by the pandemic, but many of their family members' jobs have. SCC volunteers continue to provide help when needed. The photos below show more about how SCC responded to the COVID-19 pandemic.

Credentials Conferred During SCC's Drive-thru Graduation Ceremonies

SCC Held Nurse Pinning Ceremony at the Crutchfield Education Center Parking Lot

Grant Supports Student Wi-Fi Hotspots

SCC Donates Medical Supplies to Atrium Health Stanly

Grant Supports Student Chromebooks and Cleaning Supplies

SCC Donates Ventilators to Atrium Health Stanly

*This program was supported by grant funds from the Institute of Museum and Library Services under the provisions of the Federal Library Services and Technology Act (LSTA) as administered by the State Library of North Carolina, a division of the Department of Natural and Cultural Resources (IMLS grant number LS-246551-OLS-20).

Student Success

Information Systems Specialist Touts Great Experience

Brandon Johnson has had a passion for computers since he was a kid. "I started playing with computers when I was about eleven years old. My brother and uncle were always tinkering with computers so naturally I wanted to do what they were doing," he said. Brandon is a 2019 Computer Engineering Technology graduate from Stanly Community College (SCC) and works as an Information Systems Specialist for Stanly County. "I have always enjoyed building computers and taking them apart, so I figured why not get paid to do what you enjoy!"

Studying at SCC turned out to be a great experience for Brandon. "The teachers at SCC care about you and your education. I was able to get all the time I needed with the instructors, all I had to do was ask for help," he explained. "Plus, SCC has small class sizes and lots of one-on-one help available. Most of the time I felt like I was hanging out with friends more than going to school. I think that's what made my experience at SCC so awesome."

Jeff Swaringen, SCC Computer Engineering Technology Program Head, stated, "Brandon was a devoted student who loved Information Technology. He was always familiar and quick to quote specifications on what new central processing unit (CPU) was on the market or what was the latest and greatest computer graphics card. It was obvious Brandon was suited for a career in Computer Engineering Technology. It is very satisfying to see one of our graduates doing so well in career and life." Brandon tells us his current job is very rewarding. "I love what I do. I wake up every day happy to go to work. I'm working with awesome people that would give you the shirt off their backs to help you if you needed it."

Computer Engineering Technology

This program provides the skills required to install, service, and maintain computers, peripherals, wired and wireless networks, and microprocessor and computer-controlled equipment. It includes training in both hardware and software with emphasis on operating systems concepts, data security, and data recovery.

Coursework includes mathematics, physics, electronics, digital circuits, and programming with an emphasis on the operation, use, and interfacing of memory and devices to the CPU. Additional topics may include communications, networks, operating systems, programming languages, Internet configuration and design, and industrial applications.

Graduates should qualify for employment opportunities in electronics technology, computer service, computer networks, server maintenance, programming, and other areas requiring knowledge of electronic and computer systems. Graduates may also qualify for certification in electronics, computers, or networks.

Student Success

Graduate Has Passion for Helping Others

Family and career are important priorities for Dominekia Glenn. Ms. Glenn, her son Malik, and her daughter Na'yuanna have all taken classes at SCC, and at one point all three were taking classes at the same time. Dominekia graduated with an Associate in Arts in Business and Accounting. "I loved attending SCC so much that I made this a family affair!" she said. "I've enjoyed my time at SCC that I actually considered earning another degree. I absolutely loved the faculty and staff who always made me feel as if they were just as invested in my future as I was. I would not be where I am today if it had not been for the SCC instructors. These individuals were a big influence on me and always encouraged me to keep pushing forward when things got difficult," she said.

Since graduating from SCC, Dominekia has been participating in an "on-the-job" training program through NCWorks Career Center and Alliance Health and Homecare, LLC, as a business clerk. Dominekia's son, Malik Wilson, is now a student at Elizabeth City State University studying computer science. "SCC was a wonderful jumpstart for me. It taught me responsibility and time management skills that have made me a better student," he said. Na'yuanna, Dominekia's daughter, tells us that she also liked taking classes at SCC. "Taking classes at SCC was challenging and helped me test the waters as far as my education goes. I have taken curriculum classes and continuing education classes. Once I earn a degree, I plan on opening my own nail salon," she said.

Dominekia expressed, "SCC wants you to succeed! It was so rewarding to see that all of my hard work paid off. I feel that I have been able to set a good example for my kids and that I've paved the way for them to do bigger and better things with their lives."

Business and Accounting Program

The Business and Accounting Program is designed to introduce students to the various aspects of the free enterprise system. Students will be provided with a fundamental knowledge of business functions and processes and an understanding of business organizations in today's global economy.

Email: lnarolewski4068@stanly.edu

Other Transfer and Business programs include Accounting and Finance, Agribusiness Technology, Associate in Arts, Associate in Arts Business and Accounting, Associate in Arts Teacher Preparation, Associate in Science, Associate in Science Teacher Preparation (STEM), Business Administration, and Cosmetology Technology.

Student Success

From Welder to Business Owner

After Randy Mullins finished his military service in the United States Army, he knew he wanted to go back to school and become a business owner. "I always knew I wanted to work for myself, be my own boss. After spending nine months overseas during my time in the military and working with such a large number of people, it inspired me to follow my dream to become

a business owner," said Randy, who graduated with his Welding and Business Administration degrees from SCC. Randy started out studying Business Administration, but like many students who change their career path along the way, Randy decided to enroll in the Welding program instead. "While I was in the welding program, Mr. Beaver taught us all about the welding trade and I knew that this is what I wanted to start my business in." Randy tells us that enrolling at SCC has had a great impact on his life.

"Stanly Community College is my hometown school, so of course I wanted to attend SCC to support my local community college. All of my instructors at SCC have made an impact on my career. Mr. Beaver, who was my welding instructor, was always so helpful and was a wonderful adviser to me. Studying at SCC has been such a great experience, especially with all the support from the faculty and staff. However, I am here to tell you that it has not always been easy. Adjusting to virtual learning for my Business Administration degree was difficult, but Canvas is easy to navigate and the instructors are always there to help when you need them."

Randy is the Owner of RAM Welding & Fabrication, located in Mount Pleasant, NC. You can find the company profile on Facebook and Google. Randy enjoys welding so much that he decided to become a part-time instructor for the Welding program at SCC. "I run and operate my own business, but when I am teaching at SCC, I try to teach others a new trade so that they can become a better version of themselves."

Business Administration

The Business Administration curriculum is designed to introduce students to the various aspects of the free enterprise system. Students will be provided with a fundamental knowledge of business functions and processes and an understanding of business organizations in today's global economy.

Student Success

Graduate Finds Passion as Radiologic Technologist

When Joey Wittman is not busy fishing, boating, or spending time with his family, you can find him at Atrium Health Stanly performing diagnostic imaging. Joey, who is a Radiologic Technologist (R)(CT)(MRI) at Atrium Health Stanly, completed his training for Computed Tomography (CT) and Magnetic Resonance Imaging (MRI) at Stanly Community

College (SCC) in 2013 and 2018, respectively. Joey chose SCC to complete his training because it was economical and convenient. "I wanted to become more versatile at work and to be able to work in multiple imaging modalities. I chose to take my training at SCC because it was affordable and the online classes worked around my busy schedule," Joey said.

His biggest challenge during his training was time management. "Working a full-time job and a part-time job while trying to spend quality time with my family, while staying on top of my training, proved to be a challenge. However, the instructors were only a phone call or email away, and they even helped me with the registration process. Right now my biggest challenge is COVID-19," he said.

Joey recalls helping patients as a teenager. "When I was in high school I started out working as a patient transporter, which is someone that takes the patients from their rooms to the imaging department. I knew then that I liked the radiography field and have been in it ever since. I can honestly say that the most rewarding part about my career is interacting with patients and being part of a team that provides potentially lifesaving care in one of the most trying times of a patient's life."

Joey was nominated for the Atrium Pinnacle Award. This award recognizes outstanding teammates who model the system's Core Values of Caring, Commitment, Integrity and Teamwork. He is a member of the SCC Radiography Advisory Committee, and is a part-time clinical instructor for the Radiography program at SCC.

Radiography Technology

The Radiography curriculum prepares the graduate to be a radiographer, a skilled healthcare professional who uses radiation to produce images of the human body.

Coursework includes clinical rotations to area healthcare facilities, radiographic exposure, image processing, radiographic procedures, physics, pathology, patient care and management, radiation protection, quality assurance, anatomy and physiology, and radiobiology.

Graduates of accredited programs are eligible to apply to take the American Registry of Radiologic Technologists' national examination for certification and registration as medical radiographers. Graduates may be employed in hospitals, clinics, physicians' offices, medical laboratories, government agencies, and industry.

Contact: Tiffany Barbee

Title: Radiography Technology Program Head

Phone: 704-991-0162

Email: tbarbee9080@stanly.edu

Other Health Science programs include Emergency Medical Science, Medical Assisting, Medical Laboratory Technology, Nursing, Nursing LPN-RN, Pharmacy Technology, and Respiratory Therapy.

Student Leadership

Academic Excellence Award

Each of the 58 community colleges in the system may select one student to be listed as the state Academic Excellence Award recipients for the year. Hannah Barnhill, an accounting and finance student, was the honoree from SCC. Ms. Barnhill graduated with honors this spring with an Associate in Applied Science in the Accounting and Finance program. In

addition to her academic achievement, she serves as President of the College's Phi Beta Lambda (PBL) chapter and competed in an Accounting and Future Business Executive competition at the state Phi Beta Lambda online conference.

The Robert W. Scott Student Leadership Award

The Robert W. Scott Student Leadership Award is given in honor of the 1969-1973 governor of North Carolina who later served as President of the State Community College System. The SCC nominee is Vyktoria Iverson, an Albemarle student working toward an Associate in Applied Science in the Accounting and Finance program. Ms.

Iverson serves as President of the College's Student Government Association (SGA) and is a second-year member of Phi Beta Lambda. She received third place in the state Phi Beta Lambda Personal Finance event last spring. She was recently named the recipient of a memorial scholarship from the family of Ann Kiser, former secretary to three SCC presidents prior to her retirement.

Dallas Herring Achievement Award

Tamisha Bush is the Dallas Herring Achievement Award nominee. This award is presented to honor Dr. Dallas Herring, who served as chair of the North Carolina Board of Education in 1963 and is considered the "father" of the state's community college system. Ms. Bush is from Kannapolis and graduated this spring

with an Associate in Applied Science from the Early Childhood Education: Birth-Kindergarten Licensure Track or transfer to a UNC system university. In her nomination materials her instructors wrote, "Tamisha's dedication and positive attitude has helped her be successful despite adversities. She is eager to learn and has a passion for children, being both a parent and a foster parent. Her goal is to provide outstanding classroom instruction and daycare activities for children."

Graduate Elected State PBL Officer

Allison Taylor Smith, a graduate of Stanly Community College (SCC) who will continue working toward a Bachelor's degree at Pfeiffer University, was elected as Secretary of North Carolina Phi Beta Lambda (PBL)

during the student organizations recent virtual State Leadership Conference. Ms. Smith, who is studying accounting, was involved throughout the year in SCC activities. She served as an officer of the PBL chapter and as secretary of the Student Government Association. She represented the PBL chapter at the 2019 Fall Leadership Development Conference in Greensboro and was Chair of the committee to prepare the SCC entry, which won the Best Chapter Display contest at the conference.

Student Leadership

SCC PBL Wins National Recognition

Giselle Chavez, an Advertising and Graphic Design graduate, shows off the medallion received by winners in the 2020 National Phi Beta Lambda competitive events held recently. Ms. Chavez was one of four members of the SCC Parliamentary Procedure team that received Third Place in the nation for their knowledge of Robert's Rules of Order and

their performance of a properly conducted business meeting. Other members of the SCC team were Jailia Vang, Monica Chang, and Kimberly Gomez. Rather than meeting in Salt Lake City as planned, the national PBL conference was held virtually.

EMT Students Prepare for NCOEMS Exam

Students in the Emergency Medical Technician program at SCC had an opportunity to visit with the MedCenter Air (MCA) flight team, with Atrium Health Medical Center located in Charlotte. Bryan Woodard, SCC EMT Instructor, stated, "Each year during EMT class the MCA flight team fly out to the location of the class so the students can see the helicopter and meet the staff. The students have the chance to talk with nurses and pilots about the function of the helicopter, how to set up landing zones, what treatments the crews can do, and how fast they are able to transport someone to a trauma center. We call it the "golden hour," which is the time from injury until surgical intervention." Once students in the EMT class complete all requirements, they will be ready to take the North Carolina Office of EMS (NCOEMS) exam.

Students Complete Electrical Lineworker Training

Students completed their 12-week training program for the Electrical Lineworker certificate. The Electrical Lineworker program teaches students basic elements of electricity, overhead pole and electrical line construction, safety codes and applications, electric power systems, as well as transformer and meter installations. On successful completion of the program, students possess the necessary skills for employment in various electrical utility industries. Due to COVID-19 restrictions, a graduation ceremony was held outside the Snyder Building on the Albemarle campus. Family and friends remained in their vehicles in the Snyder Building parking lot and were able to watch the ceremony on the College's Facebook Livestream page.

According to Emsi Data (www.economicmodeling.com), medium yearly income in this region for Electrical Power Line Installers and Repairers is \$63,006, and future job growth is expected to reach 1,059 jobs by 2026.

SCC Earns High Marks

SCC Receives State and National Rankings

In keeping with its storied tradition of excellence, Stanly Community College (SCC) has recently received two high-rankings. Niche.com, a website that analyzes comprehensive data available on U.S. schools and neighborhoods, has ranked SCC as the #1 Best Community College in North Carolina for 2021.

According to the organization's website, "Niche rankings are based on rigorous analysis of academic, admissions, financial, and student life data from the U.S. Department of Education along with millions of reviews from students and alumni."

Additionally, Best Value Schools has ranked SCC as the #2 Community College in the United States for Accredited Online Associate of Arts Degree Programs.

According to the organization's website, their ranking process includes research of thousands of the top colleges in the USA, analysis of each school, while keeping in mind the factors most important for students. These factors include quality of education, degree and course offerings, cost of tuition, and student support resources among many others.

SCC President Dr. John Enamait concurs with the recent honors. "After a difficult year for our students, faculty, and staff, these recognitions are very encouraging. We have the best faculty and staff in the state and these rankings only reinforce the outstanding educational opportunities SCC offers. Despite a year of adversity, our faculty and staff have again risen to the top and excelled in providing the best education possible for our students."

New Degrees & Mobile App

Two New Teacher Preparation Transfer Degrees

SCC has launched two new and exciting teacher preparation transfer degrees. Both degrees, the Associate in Arts Teacher Preparation (AATP) and the Associate in Science Teacher Preparation (ASTP), will help fuel the pipeline for future teachers in North Carolina, as well as position the community colleges to train and recruit future teachers.

Both curricula are designed for students who wish to work as teachers in the K-12 school system and transfer to study their baccalaureate degree in teaching in a non-STEM major (AATP) or a STEM major (ASTP).

The degrees are comprised of 14 hours of EDU courses, and the remaining hours will follow the university general education requirements of the traditional Associate in Arts or Associate in Science degrees. In addition, a high school program has been established through the Career & College Promise (CCP) pathway for students to start earning their college credit classes while still in high school.

SCC Launches Mobile App

SCC has launched a new mobile app for students, faculty, staff, and alumni. The app gives users access to everything they need to be successful and stay connected to SCC right in the palm of their hand.

Dr. Myra Furr, SCC Vice President of Student Success, noted, "We are very excited about offering the new SCC mobile app and we encourage students to use it. SCC's mobile app is free to download through the Google Play Store or the Apple Store. The app is fun and easy to use. Students can stay better organized and they're able to register for classes."

More features include a campus event calendar, alumni feature, Eagle's 1-Stop button, social media feature, and more. The official SCC app is free and is available to download for Apple and Android phones.

An advertisement for the SCC mobile app. At the top, it says "DOWNLOAD OUR FREE MOBILE APP!". Below this is a smartphone displaying the app's interface, which includes the SCC logo and various navigation options. To the right of the phone is the "stanly SCC COMMUNITY COLLEGE" logo. Below the logo, it says "Learn more about SCC and stay connected!". At the bottom, there are two buttons: "Available on the App Store" and "GET IT ON Google play". The website "www.stanly.edu" is listed at the bottom.

Celebrating Upward Mobility

Blake Bostic Named Associate Vice President

Blake Bostic was named Associate Vice President of Administrative and Fiscal Services at SCC. In his new role, Blake will bring together the business operations, capital projects, and facility care into a more unified division. Blake joined the SCC family in 2015. He has served as Dean of Administrative and Facilities Services for the past five years and has served on several College committees

including the Culinary Trades Committee and the Finance and Facilities Committee. Blake was instrumental in the College's recognition by the State of North Carolina for Energy Conservation. Blake earned his Bachelor of Science in Construction Management with a concentration in Finance, from Western Carolina University. His previous work experience will bring unique skills and knowledge to his new position.

Kimberly Bradshaw, SCC Vice President of Administrative Services and Chief Financial Officer, stated, "I look forward to working with Blake. He has done an outstanding job over the past few years at Stanly Community College. Blake has managed several campus projects that included renovations to the Advanced Manufacturing, Industry, Technology and Trades (AMITT) Building, overhauled the Patterson Building, the Kelley Building outdoor steps, and managed the construction and completion of the Morton-Moffitt Cosmetology Building on the Albemarle campus. Additionally, Blake has managed the campus landscape project, and multiple chiller replacements for the College's HVAC systems. Blake's knowledge of energy efficiency has led SCC to over a 41% savings in utility costs over the past few years. It will be a benefit to have Blake move beyond this role into a larger business role at SCC."

"I am grateful for the opportunity to help lead SCC with their facilities and financial oversight," said Blake. "We already have a great team in place and I feel privileged to be able to work with them. I look forward to being part of the continued success and progress at Stanly Community College."

Devin Baucom Named Associate Vice President

Devin Baucom was named the Associate Vice President for the School of Advanced Manufacturing, Industry, Technology and Trades (AMITT). In his new role, Baucom will provide leadership for the School, as well as work with employees and liaisons to create a network of support for planning of long-term goals to benefit the School and the College.

Additionally, he will act as the College's facilitator in identifying, developing, and implementing new opportunities and programs.

Jeff Parsons, SCC, Vice President of Academic Affairs and Chief Academic Officer, stated, "We are excited to have Devin move into the Associate Vice President position. He has done a great job as Dean for the last two years and will be invaluable as we work to grow our existing AMITT programs and expand our offerings in the Trades."

Baucom joined the SCC family in 2011. He has served as a faculty member, Program Director, and a Dean. His previous work experience in development, leadership, project management, and conflict resolution from businesses such as Byrum Heating and A/C Inc., Boling and Hough Heating and A/C, and Commercial Mechanical Contractors Inc., will bring distinctive skills to his new position.

Baucom is currently pursuing his Master of Divinity in Leadership from Liberty University. He earned his Bachelor of Arts from Charlotte Christian College and Theological Seminary in Charlotte. He received his Heating, Ventilation, and Air Conditioning education from South Piedmont Community College, and was the Outstanding Student of the Year Scholarship Recipient in 1998 and 1999. "I feel honored to have been chosen for this position," Devin said. "I am excited about the opportunities and look forward to working with my colleagues to help build innovative partnerships for the College and Stanly County."

Celebrating Upward Mobility

Jeff Parsons Named Chief Academic Officer

Jeff Parsons was named Vice President of Academic Affairs and Chief Academic Officer in June 2020. In this position, Parsons will oversee leadership and administration, the planning, development, maintenance, and operation of College curriculum and non-credit programs, and provide administrative and leadership direction for all areas of Academic Affairs.

“Please join me in congratulating Jeff on his new position at SCC. Jeff’s hard work and achievements have prepared him well for his new leadership position,” said Dr. Enamait, President, Stanly Community College. Parsons joined the SCC family in 2003, and has served as a faculty member, Program Director, Interim Program Head, and Associate Vice President. As the Associate Vice President for Advanced Manufacturing, Industry, Technology and Trades, Parsons led efforts to bring new curriculum programs to the College, provided support to Customized Training, and utilized continuing education programs to meet the immediate needs of local industry.

Parsons’ previous work experience in project management, research, and strategic sourcing, from distinguished businesses and organizations will bring a wealth of knowledge to his new position. Parsons is working towards his Doctoral degree at Wingate University in Higher Education Executive Leadership. He earned a Master’s of Arts in Christian Studies from Southeastern Baptist Theological Seminary, and a Master’s of Science in Mechanical Engineering from the University of North Carolina at Charlotte.

Jeff Parsons stated, “I love Stanly County and care deeply about its welfare, progress, and the good of its citizens. Believing that Stanly Community College is a key asset to this County, I am eager to do more with the College to continue improving the lives in our region. I look forward to serving Stanly Community College in this new position.”

Dr. Enamait Appointed to Advisory Board

The Belk Center for Community College Leadership and Research at the NC State College of Education has appointed Dr. John Enamait, President, Stanly Community College, as an advisory board member. The Belk Center for Community College Leadership and Research is dedicated to the development and support of community college

leaders who are prepared to help solve pivotal problems facing community colleges today and in the future.

Dr. Enamait stated, “It is truly an honor to be selected as an advisory board member to the Belk Center for Community College Leadership and Research. I look forward to working with the board and other members and colleagues towards the advancement and progression of community colleges across North Carolina.”

As reported by the Belk Center for Community College Leadership and Research website at <https://belk-center.ced.ncsu.edu/who-we-are/>

“North Carolina’s long-term vitality is largely dependent on the development and growth of a workforce that is highly skilled, as well as the community college system that produces that workforce. As the economy and job markets continue to evolve, demanding a workforce that is credentialed, diverse and fluid in critical thinking, so will the demands on our community colleges. The Belk Center for Community College Leadership and Research is committed to equipping exceptional community college leaders who address these urgent needs.”

Employee Success

Reese Linnell Earns Doctorate

Reese Linnell, Director of the Small Business Center and Entrepreneurial Development at Stanly Community College, recently earned his Doctorate of Philosophy, with a concentration in Humanities and History, from Faulkner University in Montgomery, Alabama. Dr. Linnell also studied at Wingate University where he earned his Bachelor of General Studies. Additionally, he earned his Master of Arts in Liberal Studies from Wake Forest University.

Dr. Linnell tells us that studying at Faulkner University was very inspiring, “Academically, the doctorate program was challenging as it introduced me to new authors, ideas, and perspectives and required significant research and writing each semester. Culturally, as an online opportunity available to students across the world, I had opportunities to study with students living in North Carolina, others from across the United States, and colleagues living in the Middle East, Japan, and South Korea. It was very inspiring,” he commented.

Dr. Linnell recently published a novel titled, *Thaddeus Baxter Kaymus and The Queens’ Gift*, and it is available for checkout at SCC’s library. Additionally, he has authored two plays: *Driving Mr. Neusbaum* and *An Angelic Christmas*, and not long ago, had an article published in the Mature Living Magazine, titled, *America’s Favorite Pastime*.

Dr. Linnell, previously a Success Coach for the University Transfer Program, has recently accepted a new position at SCC as the Director of the Small Business Center and Entrepreneurial Development.

In his new role, Dr. Linnell will administer all activities of the Small Business Center and coordinate entrepreneurial certificate programs, identify business community needs, and deliver technical and managerial assistance to small business owners and prospective owners.

Rita Love Earns Doctorate

Rita Love has earned her Doctorate in Educational Leadership from Liberty University in Lynchburg, Virginia. Love, a native of Stanly County, joined Stanly Community College in 2006 as the Health Occupations Coordinator, and is currently serving as the Director of Health and Public Services Workforce Development. “Congratulations to Rita on earning her Doctoral degree.

She does a great job for the College and we know that she will continue to foster strong partnerships with our community healthcare leaders and agencies to provide educational and training needs. We wish her all the best moving forward,” noted Dr. John Enamait, President of Stanly Community College. Love confesses she has always been very passionate about the health sciences. “I started my college experiences with a focus on biology, health, and wellness. Over time, I began to explore teaching and public speaking. Eventually, a short tenure as a high school science teacher morphed into a 14-year career in higher education,” she said.

Love earned her Bachelor of Science from the University of North Carolina-Chapel Hill, and her Master of Science in Public Health from Tulane University School of Public Health and Tropical Medicine. Love served as Staff Sergeant in the United States Army Reserves and received the Drill Sergeant’s Coin (Basic Training). Love is a Veteran of Operation Iraqi Freedom where she earned the Army Commendation Medal and Driver’s Badge. Additionally, in 2016, Love received the SCC Staff Member of the Year Award and the National Institute for Staff and Organizational Development (NISOD) Excellence Award.

“I have found a home at SCC,” explained Love. “How wonderful it has been to work so close to my home, in my home county, and with a beautifully diverse group of people! Over the years, administration has shifted, departments have been restructured, and our economic environment and community needs have evolved. I am so thankful for the privilege to have experienced these challenging changes as part of the SCC family.”

Employee Success

Alan Campbell Earns Doctorate

Alan Campbell has recently earned his Doctorate in Educational Leadership with a focus on andragogy/adult education from the University of the Cumberlands in Williamsburg, Kentucky. Dr. Campbell has been employed with the College since 2016 and is a History Instructor. “Congratulations to Alan Campbell on reaching his educational goals. His diligence and

hard work is something that I sincerely respect,” noted Dr. John Enamait, President of Stanly Community College. Dr. Campbell’s dissertation was titled “Andragogic Methods of Tutoring in North Carolina Community College Multi-Subject Learning Centers,” which focused on the theories of adult education used in tutoring at community colleges. “I felt community colleges were a great place to conduct this research because of the large number of non-traditional students in the community college population,” noted Dr. Campbell.

During his high school years, Dr. Campbell focused on the automotive field, but later changed his attention to teaching. “I wanted to be an automotive technician when I was in high school,” he said. “I earned my Associate’s degree in Automotive Technology from Central Piedmont Community College. But what I really wanted to do was teach and work in the community college system, so I returned to school and obtained my Bachelor of Arts in History from the University of North Carolina at Charlotte, then moved on to earn my Master of Arts in World History at the New York University of New York, NY,” he added.

Dr. Campbell’s inspiration to earn his Doctorate degree stems from a strong conviction in the community college mission. “I believe deeply in the community college system and its role and mission to make quality education both affordable and available. Community colleges are where I intend to spend my career.” Dr. Campbell is continuing his educational studies at the University of the Cumberlands to obtain a second Master of Arts degree in Religious Studies.

Faculty Featured on UNC’s Educator Spotlight

Liane Honeycutt, French and Spanish Instructor and the Global Education Liaison at SCC, was recently featured in the World View Educator Spotlight at UNC-Chapel Hill. Liane stated, “I can easily say that global education has been a passion of mine. Giving the opportunity for students to travel the world, opening their minds to new cultures, and learning new languages is paramount,

especially nowadays. To read the complete feature story on Liane Honeycutt, please visit The University of North Carolina at Chapel Hill Education Spotlight at <https://worldview.unc.edu/in-the-spotlight/liane-she-honeycutt/>.

Vice President Appointed to AACC Commission

Congratulations to Carmen Nunalee who was selected as a commission member for a three year term (July 2020 to June 2023) to the American Association of Community Colleges (AACC) Commission on Small and Rural Colleges. The Commission on Small and Rural Colleges will offer the association advice and counsel on trends and

issues impacting these institutions. The commission will highlight innovative practices in small and rural colleges that can serve as models for other institutions. The commission will also make suggestions to the association on ways that it may address the needs of the segment of this sector.

Accolades & Awards

Melody Braswell—Faculty of the Year

Melody Braswell, English Instructor, received the Faculty of the Year Award. Ms. Braswell has been employed with the College since 2008. She earned a Bachelor of Science in Communications/Public Relations from Wingate University, and a Master of Arts in English from East Carolina University. Ms. Braswell began teaching as an adjunct in 2009 and in 2017 began teaching full-

time. She has served as SCC's Coordinator of Service Learning and Cooperative Education, Coordinator of Student Life and Leadership, Financial Aid Liaison, Director of Grants Services, and Faculty for the English Department. During her tenure, she has served as Chair for the Faculty Senate from 2019-2020 and Chair for the Staff Council from 2010-2011. Additionally, she was selected as the "President's Choice" award recipient in 2009. Ms. Braswell values building connections with her students and empowering their voices through writing.

Martha Harris—Faculty Adjunct of the Year

Martha Harris, English Instructor, received the Faculty Adjunct of the Year Award. Ms. Harris earned a Bachelor of Arts in English Education from the University of North Carolina at Chapel Hill. She has taught middle school and high school English classes in Arkansas and North Carolina. She completed a Master of Fine Arts with study concentrations in both genres of creative nonfiction and poetry

from Queens University of Charlotte, Charlotte, N.C. She has been teaching at Stanly Community College for ten years, both on-campus classes and classes at Albemarle Correctional Institute.

Michael Hinson—Staff of the Year

Michael Hinson, Security Officer, received the Staff of the Year Award. Mr. Hinson graduated from North Stanly High School in 2004. In 2008, he received his Basic Law Enforcement Training (BLET) from Stanly Community College. Since graduating from BLET, he has served in the law enforcement field for twelve years. Mr. Hinson joined the SCC family in

2019 and served as part-time Security Officer, evening Security Officer, and Interim Director of Security. He is a member of the College's Instructional Core Committee and the Institutional Effectiveness Council. Mr. Hinson is currently working to complete his Associate in Applied Science in Criminal Justice via online classes through Stanly Community College and has maintained a 4.0 GPA.

Alumnus Receives National Recognition

Mr. Lee Pickler, President and Workforce Solutions Expert of ScanOnline in Locust, was one of two business leaders named during the Phi Beta Lambda (PBL) National Leadership Conference as "Business Person of the Year" recipient in 2020. In February, SCC's PBL chapter named him as its local "Business Person of the Year" recipient,

and the award was presented during a Stanly County Board of Commissioners meeting. Pickler is a 1986 graduate of SCC and immediate past Chair of the SCC Foundation's Board of Directors. In 2019, he received the SCC Outstanding Alumnus Award.

Cultivating Excellence

For the third consecutive year, SCC Instructor Training Center (ITC) has earned the Premier+ Award from Cisco. Cisco Systems, Inc., headquartered in San Jose, CA, is a worldwide technology leader that has been making the Internet work since 1984. The Premier+ Award is given for exemplary training and support of the instructors for the Cisco Networking Academy.

Kelly Caudle, ASC/ITC and IT Academy Program Head at Stanly Community College, stated, "On behalf of the ITC team, I would like to thank the Cisco representatives for choosing SCC to receive the Premier+ Award. Our priority is to focus on teaching instructors the skillset needed for future success as Cisco Networking instructors. It's an amazing opportunity for those that dream of an IT career."

SCC's Instructor Training Center offers Cisco Network Academy instructor training in an online, blended, and distance-learning format. Classes utilize Zoom for instructor interaction and Netlabs for class labs. SCC also provides Fast Track testing and classes for both Cisco Certified Network Associate (CCNA) and Cisco Certified Network Professional (CCNP). Pictured from left to right are the ITC instructors—Kelly Caudle, Brandon Crump, Brian Crump, Caleb Herrin, Sylvia Lewis, and Gonda Watson.

CIM Program Earns NIMS Accreditation

The Computer-Integrated Machining program recently received accreditation for the next five years from the National Institute for Metalworking Skills (NIMS). NIMS, a nationally recognized organization that was established in 1995, is the industry standard for skills training, validation, and credentialing.

Ross Plyler, a second year Computer-Integrated Machining student at Stanly Community College, runs a Haas TM1P machine, preparing for the NIMS Computer Numeric Control (CNC) Operations Certification.

CPR Manikin Grant

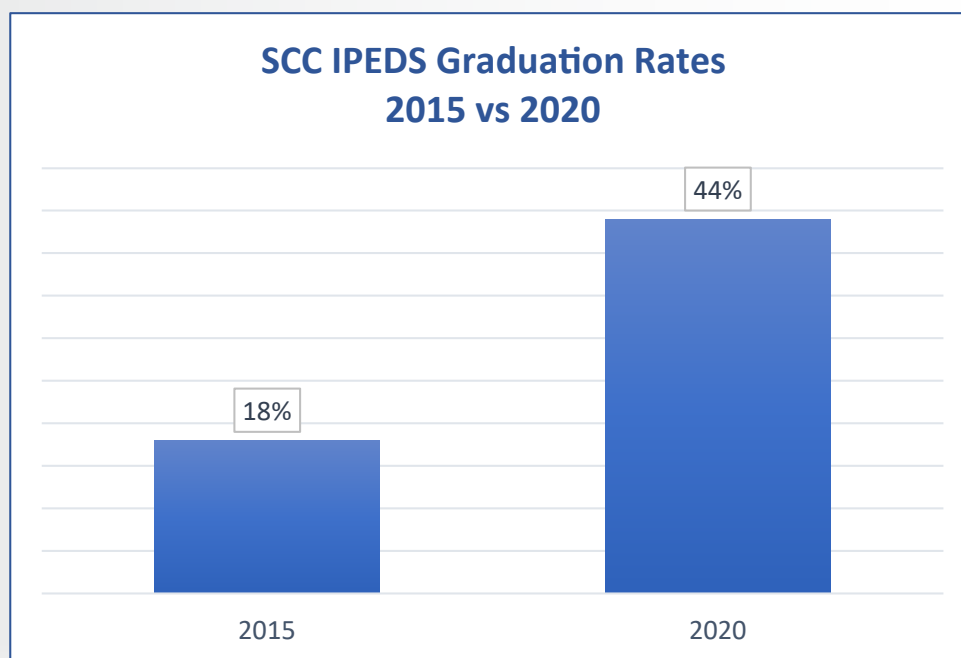

SCC was awarded grant funding for \$2,000 from the Stanly County Community Foundation. The funding went towards Cardiopulmonary Resuscitation (CPR) manikin upgrades used for the following programs: Emergency Medical Science, Basic Law Enforcement Training, Law Enforcement In-Service Training, and Nurse Aide.

Mrs. Ann B. "Micki" Thompson, SCC's Law Enforcement Coordinator and American Heart Association Certified CPR Instructor, stands beside six new state-of-the-art manikins purchased through grant funding from the Stanly County Community Foundation.

Graduation Rates

The National Center for Education Statistics maintains survey data in the Integrated Postsecondary Education Data System (IPEDS), including the percentage of full-time, first-time degree-seeking students who complete their program of study within 150% of the normal time. Normal completion time for a certificate is less than 12 months (typically 4 to 8 months), 12-23 months for a diploma, and 24 months for a degree. SCC's graduation rate is based on those students who completed a certificate, depending on their program, in 6-17 months; a diploma, depending on their program, in 18-34 months; and a degree in 36 months.

Source: National Center for Education Statistics, IPEDS Data Feedback Reports, 2015, 2020

Performance Measures

The Performance Measures for Student Success Report is the North Carolina Community College System's (NCCCS) major accountability document. This annual performance report is based on data compiled during the previous year and serves to inform colleges and the public on the performance of our 58 community colleges.

The Basic Skills Student Progress measures ensure adult students with low literacy skills are progressing academically toward basic skill attainment necessary for employment and self-sufficiency. To be included, students must have been enrolled in a class during the Basic Skills program year (July 1–June 30), have accumulated 12 or more contact hours across all classes enrolled, have initial placement based on a pre-test, and have a completed post-test. Students with an initial placement of Adult Secondary Education High (ASE High) are excluded because this is the highest Educational Functioning Level and a gain is not possible.

The student success rate in College-Level English and College-Level math courses ensure students are successfully completing credit-bearing English and credit-bearing math courses within their first three academic years. Percentages below are for first-time Associate Degree seeking and transfer pathway students passing a credit-bearing English or credit-bearing math course with a “C” or better within three years of their first term of enrollment.

The First-Year Progression measures ensure first-year students make progress toward credential completion. Percentages below are for first-time fall curriculum students who graduate before or enroll in college courses during the next fall term. The Curriculum Completion Rate measures ensure student completion and/or persistence toward a post-secondary credential. Percentages below are of first-time fall curriculum students who have either graduated, transferred, or are still enrolled during the fourth academic year with at least 42 non-developmental credit hours completed with a “C” or better.

The Licensure and Certification Passing Rate measures ensure programmatic coursework prepares students to competently practice in their chosen profession and aggregate institutional passing rates of first-time test-takers on licensure and certification exams. Exams included in this measure are state mandated exams, which candidates must pass before becoming active practitioners. Results are based on first attempts.

College Transfer Performance measures ensure the academic success of community college students who transfer to a four-year college or university. The percentages below are of students who exited NCCCS after having completed an Associate Degree and/or least 30 cumulative hours of articulated transfer credits and subsequently transferred to a four-year college or university and either graduate prior to or are still enrolled in the next fall term.

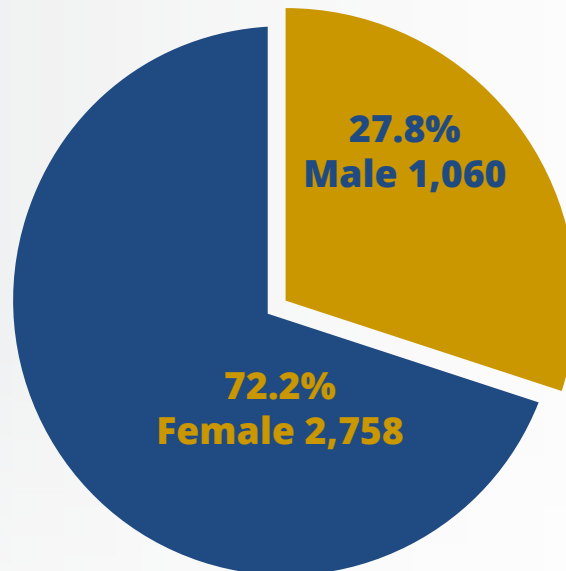

Performance Measure	System Baseline	SCC Result
Basic Skills Student Progress	24.2%	31.1%
Credit English Success	40.1%	51.9%
Credit Math Success	19.5%	41.6%
First Year Progression	56.6%	73.8%
Curriculum Completion Rate	34.1%	55.6%
Licensure Passing Rate	0.79	0.87
Transfer Performance	74.4%	88.3%

A Note From the Foundation Chair

Dear Friends,

For more than 43 years, the Stanly Community College Foundation has been serving the students at Stanly Community College. The last year, during which I have had the honor of serving as Board Chair, has been one of the most exciting years in its long history. This is due to the generous support of our neighbors and friends.

By focusing our efforts on Foundation awareness to both internal and external constituents, we have seen increases in employee and community giving. This support, along with newly established endowed and annual scholarships, has helped us award thousands of dollars in scholarship monies to deserving students.

The challenges we faced with the pandemic have strengthened the role of the Foundation, encouraging philanthropy and providing a vehicle for donors to build a sustainable financial asset for use in offering opportunities for students, helping those facing barriers to education, and assisting with program needs to ensure a valuable and comprehensive education.

As we approach the 50th anniversary of Stanly Community College, I am encouraged by the investment our friends have made to provide life-changing education to all of our students. Stanly Community College and the SCC Foundation have a strong past, and an even stronger future thanks to you.

Sincerely,

A handwritten signature in black ink that reads "Cindy Beane". The signature is written in a cursive, flowing style.

Endowed & Annual Scholarships

SCC is fortunate to be able to provide scholarships to students through our **Endowed Scholarship Program**. Endowed scholarships are often established by friends of the institution with the express purpose of helping students achieve their goals while honoring key individuals and their lives. The following endowed scholarships were awarded over the last year.

<p>Bernard Keith Almond Herman W. Almond Clyde Almond-Benton Atrium Health Stanly Ed, Les, Brown, and Jim Bivens Len Rogers Brafford Pamera H. Brafford William C. New Creative Counseling Human Services Scholarships

Dr. Laura Harberson established the Creative Counseling Human Services Scholarships in January 2020. Dr. Harberson owns Creative Counseling & Learning Solutions, which is a community-based counseling practice that offers creative and collaborative counseling services for children, adolescents, individual adults, couples, and families, with interventions to assist their clients with emotional, behavioral, familial, relational, social, and academic needs. Two, \$2000 scholarships are awarded each year to students pursuing certifications, diplomas, or degrees in Human Services Technology.

Annual Scholarships and awards are accepted throughout the year by the Foundation from personal and corporate giving. These general scholarship funds are awarded to students in the Fall and Spring semesters. Below are the annual scholarships awarded last year.
